DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 56-58 and 60-63 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

There is no specific support for the negative limitation of excluding binders.

The examiner acknowledges the deletion of the previously rejected term “*printing* paper.”

Claim Rejections - 35 USC § 102

4. The rejection of claims 56-58, and 60-63 under 35 U.S.C. 102(e) as being anticipated by Mochizuki et al US 6238784 is withdrawn in view of Applicant's amendments excluding the presence of a binder.

5. The rejection of claims 56-58 and 60-63 under 35 U.S.C. 102(e) as being anticipated by Hart et al US 5093309 is withdrawn in view of Applicant's amendments excluding the presence of a binder.

6. The rejection of claims 56-58 and 60-63 under 35 U.S.C. 102(e) as being anticipated by Okado et al US 5637432 is withdrawn in view of Applicant's amendments excluding the presence of a binder.

Response to Arguments

7. Applicant's arguments filed previously have been fully considered as they apply to the newly amended claims but are not persuasive.

Applicants have amended the claims to set forth that the paper product does not comprise a binder. The specification fails to provide support for a paper excluding a binder. The portion of the specification reference by Applicant as providing support for this claim amendment merely provides support for an embodiment having calcium carbonate that is applied directly to a web (with no disclosure as to whether the web contains a binder) or wherein a binder may be coated on a web. This disclosure is not commensurate in scope with the claim limitation requiring that "the paper product does not comprise a binder."

Art Unit: 1773

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
